PROFESSIONAL SUMMARY

Full-stack Engineer with 2 years of experience building customer-focused web applications using microservice architecture. Skilled in developing scalable APIs and modern front-end experiences with Angular and Node.js. Beyond coding, I enjoy leading teams and tech communities, having organized developer events and mentoring peers to grow in tech.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, NodeJS, Python
Framework/Technologies : Angular, React, Express, NestJS, Django, REST, GraphQL
Database: MongoDB, PostGres SQL, MySQL, Redis
Deployment/CI CD: Git, GitHub, GitLab, BitBucket, Docker, Kubernetes
AI/Productivity: Github Copilot, Gemini CLI, Claude, Cursor

EXPERIENCE

Software Engineer, Expertflow - Lahore Dec 2023 – Present

- Developed and maintained MEAN stack applications powering CRM solutions
- Designed and implemented a centralized GraphQL gateway microservice, streamlining search across internal and external data sources
- Migrated client side Angular components from v8 to v14 reducing 50% CI/CD pipeline completion time
- Introduced TDD and BDD practices into Client side components, improving test coverage and code quality

Yurt: A Collaborative Community Platform for Learning

- Built a full-stack platform enabling real-time chat, video calls, collaborative whiteboarding, and an AI-powered chatbot to enhance academic collaboration
- Engineered real-time messaging with WebSockets and deployed via Docker on cloud infrastructure
- Achieved 30% reduction in chat latency, supporting 100+ active users during testing for seamless collaboration

Past Papers Hub: Browse and Contribute Papers

- Developed a responsive, intuitive interface for browsing and contributing past exam papers, solving accessibility issues for academic resources
- Implemented user authentication and UI via REST APIs.
- Resulted in 80+ papers uploaded and a 25% increase in returning users, indicating higher engagement

Tegathon: Event website for Google Developer Club

- Lead the design and development of website to centralize event info, schedules, and FAQs for a Google Developer Student Club event
- Delivered on schedule, leading to a 20% increase in event participation compared to previous editions

EDUCATION

BS Computer Science, COMSATS University Islamabad Feb 2021 – Feb 2025
• Batch Topper & Gold Medalist *CGPA: 3.87/4.00*

ACHIEVEMENTS AND CERTIFICATIONS

Lead, Google Developer Student Club

Founded and led Sahiwal's first globally recognized tech community; organized conferences, workshops, and hackathons.

Microsoft Learn Student Ambassador

Conducted workshops on Git, GitHub, and Python to empower students with industry-ready skills.

Speed Programming Award

Runner-up in CUI's university-level speed programming competition.

CS50: Introduction to Computer Science (Harvard University)

Meta Backend Development Specialization (Coursera)
